CHARVET

GROUPE RGF
SMART PLASTIC

TOOLING PRODUCTION AND PLASTIC INJECTION

With more than 50 years' experience in tooling production, Charvet offers modern machines for manufacturing moulds up of to 1.6 T.

Our R&D office will produce your designs (CAD-CAM) and rheology data. We can also develop your moulds in low-cost countries.

Charvet has a workshop of 13 presses ranging from 30 to 180 tonnes and has the facilities to perform testing and small and medium production runs.
